LOCAL INVESTMENT SECURITIES. BANK STOCKS

PRICES AGAIN MOVE FORWARD

Strength Given to Market in Buying of Speculative Shares

NEW TORK, March 18.—Trading in stocks today was moderate but prices seam mored forward on hydra of speciality industrials and speciality. Rains approximated \$50.000 shares. unative industrials and specialities. Sales approximated 55 500 planers.

Reactionary (wheteneles continued to mise at the opening. Leaders of the fallway and industrial groups were noglected, while specialities (Gains extending from fractions to one point in Policians, Virginia-Corollon Chemical, International Harvester, Seasy Rubbick and Central Leather were bulanted by recessions of the same extent in domestic and foreign oils, junior transportations and infilities, notably Market Street Railway preferred. Steals were steady on the proposed advance of sire prices announced by independent producers.

Dealings fell saws almost steadin during the forencon, but the market strengthened on the subject gives to exceptioned in the market limits for the producers.

Dealings fell saws almost steadin during the forencon, but the market strengthened on the subject gives to except the composite common and preferred made four point gains, evidently in short covering American Locomotive Baddwin Locomotive and Pulman rose 1 to by Bolints.

Mexican Petroleum and California Pe-

made four point gains, evidently as short covering. American Locomotive, Bald with Locomotive and Pallman rose 1 to 15 points.

Mexican Petroleum and California Petroleum were autherantially better and Suara-Roeleuck extended its early rise least Tra sommon and preferred. Corn Products and Industrial Aluebol advanced on baying by posts Allies Chemical was heavy in connection with the dividend action to be taken by the directors later in the day. Call money opened at 4% per cent.

Buil operators had the market well in hand and succeeded in advancing the list much further in the carly afternoon, Sharer like the tobacces which had been conspicuous laggards to recent upward movements, were taken in hand and lift. Ed. 1 to 6 points. A brisk inquiry also prevailed for the squipments, oils and steels. Low priced railroads were absorbed at steadily rishin figures and the Pacifics also made good progress unward.

Copper, leather, gas and export share figured in the broader desilings in the final hours, ralls also improving. The close was strong.

\$150,000 Ogden Portland Cement Company

7% First (Closed) Mortgage Gold Bonds

Dated April 1, 1922. Due serially, \$15,000 on April 1st in each of the years 1923 to 1932, inclusive

Denomination, \$500 each. Callable on any interest date at a premium of one half of one per cent for each year prior to

Principal and semi annual interest (April 1 and October 1) payable at the First National Bank, New York City, or at the Bankers' Trust Company, Salt Lake City, Utah, at the option of the holder

BANKERS TRUST COMPANY, SALT LAKE CITY, UTAH, TRUSTEE.

All legal matters pertaining to this issue will be subject to the approval of Adrian C. Ellis of Sait Lake Ulty.

For further information concerning this issue, reference is made to the letter from Mr. Chapin A. Day, president of the company; to the report of our engineers, Villadsen Brothers, Incorporated, and to the report of Henry S. Spackman Engineering company, which are on file in our office, and from which we summarize as follows:

1. These bonds are secured by a closed first mortgage on all the property of the company, which has net tangible assets of \$1,195,000, or about eight times the amount of the bond issue.

The net earnings of the company for the last five years, after all interest charges, but before depletion and depreciation, have averaged annually \$112,312.43, which is more than ten times the maximum interest charges on this issue of bonds, and approximately four and one-half times the maximum requirement for interest and payment of the principal in any one

3. These bonds constitute the only funded debt of the company, which supplies approximately 25 per cent of all Portland cement used in Utah and

4. The bonds are followed by \$1,000,000 of capital stock, all subscribed for at par, on which 8 per cent dividends are being paid, and on which dividends of not less than 6 per cent have been paid continuously since 1912.

The company's real estate is carrie at actual cost before the erection of the plant, less depletion. It consists chiefly of one of the finest marl deposits in the country, covering over 2000 acres, and containing sufficient raw material to last 400 years at the present rate of depletion. The removal value of the machinery and equipment alone is estimated to be in excess of the amount of this bond issue.

The company is officered and controlled by men widely known in the intermountain country for their ability and integrity

The proceeds of this issue of bonds will be used to pay off bank loans. The company's debt, therefore, is not increased by this financing.

PRICE, 100 AND INTEREST, TO YIELD 7 PER CENT

It is expected that the definitive bends will be ready for delivery on or about April 5,
